MOBILE SET UP
Classes delivered on-site at a time that suits

FLEXIBLE DELIVERY

Once-off workshops
- A series of classes

ABLETON CERTIFIED TUITION

This is a specialised subject area and CreateSound is one of the few training providers offering official certified tuition in Ireland. It is the only 'mobile' certified centre worldwide.

 Ableton Certified Training Center

TESTIMONIALS

Tom really enjoyed the day... He said he got a lot from it and is really looking forward to the next class.
Elaine, Carlow

Well balanced material. Well explained and presented. Highly recommended!
Gerry, Tipperary

Well structured and informative... it was nice being taught by someone who is genuinely passionate about music making!
Steve, Dublin

FREE CONSULTATION

Call +353 (0)86 1296995 or email info@createsound.ie to arrange a free consultation with no obligations.

Have an informal chat to see how it works and to get a better feel for what might suit your school or centre.

If it's not for you, no problem!

NEW EQUIPMENT

We have recently added a set of the latest 'PUSH' controllers to our mobile rig.

These are hard to come by and allow some ground-breaking techniques for drum programming and melody making.

They are proving a great hit in the classroom for jamming out ideas and performing tracks.

HOW IT WORKS

Using laptops, keyboards and other equipment, we teach students how to make music in a style they can get excited about (e.g. Hip Hop, Dance, Electro, etc).

To make it as accessible as possible, we put on classes and workshops on-site in your school, community project or youth centre within your normal hours.

We go to the students rather than the students coming to us.

We provide all the equipment and software licences, so that you don't need to worry about spending money on these things!

Students use their own recordings along with software instruments and drum machines to make their own tracks.

You can see examples of previous courses and listen to student music on the website:

www.createsound.ie

BENEFITS FOR STUDENTS

- **Getting to make music in a modern style that they enjoy and can relate to.**
- **Valuable experience working with the latest hardware (e.g. MacBook Pros) and creative IT applications (e.g. Ableton Live).**
- **A flavour of the technical elements of sound production and editing, skills highly relevant in expanding media industries.**
- **A chance to express themselves creatively through music.**

CD & MP3

Students get a CD and MP3 of their music to keep. MP3s are also posted online so that students can share and listen via phone, laptop, home computer etc.

MUSIC SOFTWARE

The software used is intuitive and easy to learn so students can quickly see a return for their efforts!
